## DNA Evaluation

- 1) What 4 bases make up DNA?
  - A) Adenine, Byenine, Cystosine, and Dyenine
  - B) Adenine, Byenine, Monisine, and Thymine
  - C) Adenine, Guanine, Cytosine, and Thymine
  - D) Byenine, Cystosine, Monosine, and Thymine
  
- 2) Which of the following is a component of DNA?
  - A) Cell wall
  - B) Cells
  - C) Pyridines
  - D) Nucleus
  
- 3) What process was done to break open the cells of the strawberries?
  - A) They were already opened
  - B) They were crushed in a bag
  - C) They were cut
